

Coquitlam Metro-Ford Soccer Club Field Training Overview

Updated September 2016

CMFSC FIELD TRAINING PLAN

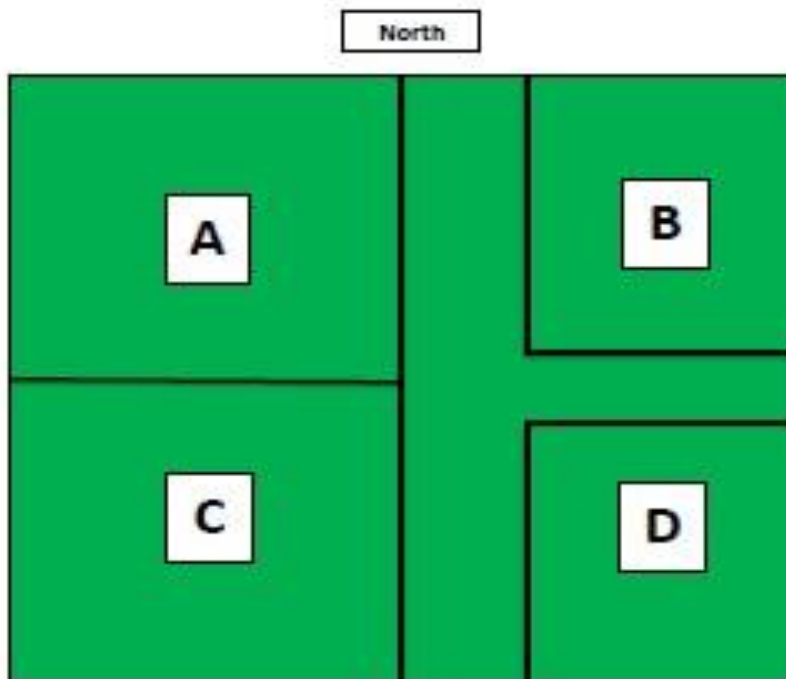

The intention of this plan is to provide a field training plan to ensure fairness as well to provide direction to avoid any confusion on training layouts for team.

In some cases, teams will be assigned a number when a rotation cycle will be determined as outlined.

Goals may need to be shared/alternated depending on how many are available on the field. Teams will take one goal and then if there are extra, they can be used.

TC NORTH

1. 4 teams per field
 - Teams will rotate each time they have access to the field. They will be given a number from 1-4 and team 1 will start in quadrant A.

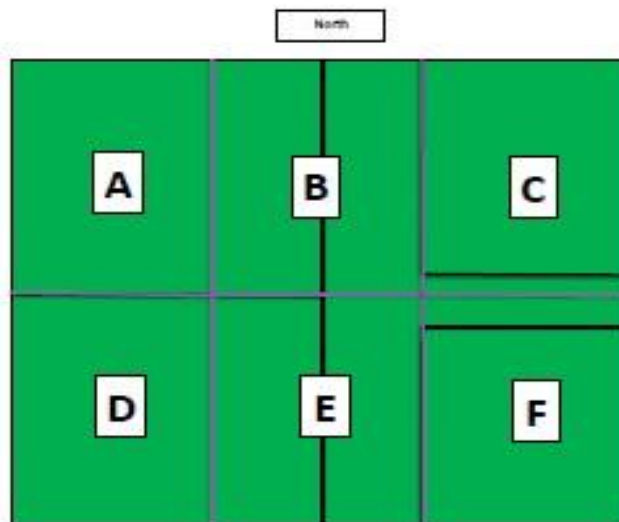

2. 5 teams per field

- Teams will rotate each time they have access to the field. They will be given a number from 1-5 and team 1 will start in quadrant A.

3. 6 teams per field

- Teams will stay in their assigned location. Rotation may occur on a monthly basis

4. 7/8 teams per field

- Teams will stay in their assigned location. Rotation may occur on a monthly basis

ALL OTHER TURF FIELDS

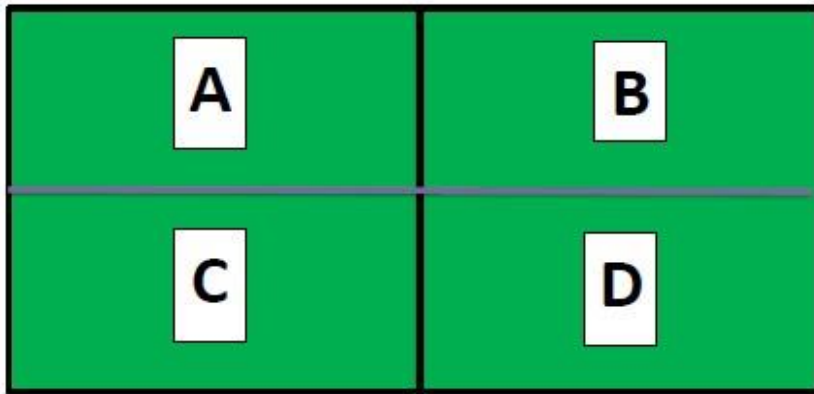

1. 3 teams per field

- Teams will rotate each time they have access to the field. They will be given a number from 1-3 and team 1 will start in quadrant A.

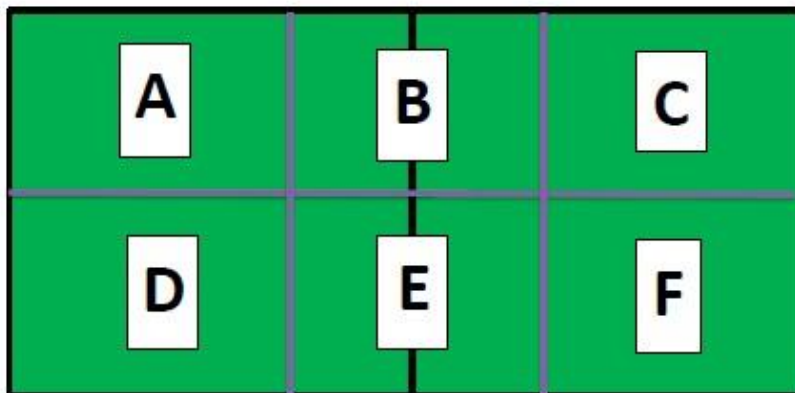

2. 4 teams per field
