

## **Uniform Policy**

---

Only "club issued and approved" gear may be worn when representing the CMFSC. Players and coaches [and managers - not on field] are not permitted to wear any clothing other than that described in the following articles.

The primary colors for CMFSC are Blue and Black.

Club gear and logo are only to be used on board approved chosen brand and supplier.

The club home jersey is blue and black stripes and must be worn whenever there is not a conflict with the opposing team. This is our primary uniform and brand.

Absolutely nothing is to be attached to uniforms and club specific attire unless instructed by the club Board of Directors. Club specific attire is defined as:

- Club uniforms, shorts & socks
- Club warm up shirts
- Club track suits
- Club back packs / bags

Teams or individuals found not to be adhering to the Uniform policy will be required to correct, dispose and replace the offending gear, at their own expense, immediately upon notification.

All outerwear/training gear (track suits, tops, pants, jackets, training shirts, shorts & socks) must follow the primary color combination. Each season, the club/board will determine the styles that will be available.

For the alternate uniforms, the club/board will determine the style of the white alternates on an annual basis.

The Club's Equipment Manager assigns uniforms.

If a coach, manager or divisional coordinator is unsuccessful in obtaining equipment from a player, the equipment manager is to be notified so that the Board of Directors can deal with these individuals.
